

EARTH MATS AND KITS

Tests undertaken by the Electricity Authority of N.S.W. have revealed that added safety precautions are necessary in respect of pole-mounted air break switches, even where insulated down rods have been installed.

Galvanised Earth Mats are 1500mm x 1000mm with frame round steel Ø12mm with crossbars Ø4mm (nominal). Entire Frame Hot Dipped Galvanised.

**Galvanised Earth mats
